# Project Estimating Coding Procedure

## 1.0 PURPOSE

The purpose of this procedure is to establish a Standard Coding structure for estimating for use on all Entity projects.

This procedure applies to works performed under all Government construction projects executed throughout the Kingdom of Saudi Arabia

## 2.0 SCOPE

This procedure applies to all Entities. It is used to identify the Coding Structure to be used in all estimates, quantity reporting, procurement, cost control, historical databases for all new Entity's projects.

The Project Cost Coding Structures Procedure EPM-KPC-PR-000001 covers all the coding requirements and shall be used as the coding procedure for all estimates.

## 3.0 DEFINITIONS

Refer to definition section in EPM-KPC0-PR-000001 - Project Cost Coding Structures Procedure.

## 4.0 REFERENCES

EPM-KPC-PR-000001 - Project Cost Coding Structures Procedure

## 5.0 RESPONSIBILITIES

The Project Controls and the Estimating with approval from the Entity's Cost Manager has overall responsibility for administration of the Coding Structure. They will assure that the intent of the code is properly interpreted by all project and project support personnel and that changes to the code are properly processed and approved.

The managers from engineering, construction, project controls and project management are responsible for defining the project coding is in accordance with EPM-KPC-PR-000001 - Project Cost Coding Structures Procedure.

## 6.0 PROCESS

The Project Cost Coding Structure pertains to all cost elements associated with the design, procurement, construction, commissioning and testing of the project estimate.

Refer to EPM-KPC-PR-000001 - Project Cost Coding Structures Procedure.
